I literally just skipped every boss in this game with this character.
what the 💩💩💩💩. Needs more Koakuma.. Patchouli is op. Pretty much a "Skip Boss" button. She's slow and the time between her attacks is kind of big but the amount of damage she does when you power up her attacks with her bombs is ridiculous. A little too ridiculous honestly.. Fun to play as :D

Good, but needs more Byakuren.. today i play with this Character how can retrieve my money back i can't use this Character sorry. "Dodge: A normal dash with coughing."

I died XD. Anyone Else Thinking Of Constant MUKYU!. Fun to play.

Would kind of like to see the delay on spell-swapping reduced/removed.

Also, as it stands should be renamed Patchoupi.. 11 coughs out of 10.. Introducing the best way to quick kill bosses. She is really just fun to play. Patchouli too OP. slow and horrible charater, with random attack very hard to contrl
